

To all new students and their families

The Health Administration Center is a support center provided to ensure a comfortable life at the university. The center offers health guidance, counseling, health support, first aid, and infection control. If you have any worries or concerns on entering university, do not hesitate to contact us.

Personal information such as consultation records are never distributed outside Health Administration Center without your permission, except in a life-threatening emergency. Please feel at ease to consult us.

Annual health checkup results

Annual health checkup results will be accessible personally on the Student Affairs Information System website **after mid of May**. We will notify you by university web mail about more details. **Please check the results by yourself with logging into the Students Affairs Information System.**

Your personal data are completely protected by the personal identifier. We recommend you to print out the results since they are important data for your life long health self management.
